

A JBI gLOCAL Solution Room: From global collaboration to tailored local application: an example of how a clinical guideline was developed across Denmark and Australia

PROGRAM

JUNE 4, 08:00 – 10:00 (GMT+2)

Global Evidence, Local Decisions

The JBI gLOCAL Solution Room is a ten-day event held across the globe from 3 – 9 June 2024, in numerous different countries and is designed to provide pragmatic solutions to your challenges in getting evidence into practice in your clinical setting.

Each JBI gLOCAL Solution Room event will include a panel of experts that will give you 'real-world' insights during their presentations focused on evidence-implementation. As a 'think tank' they will then respond directly to participant questions around EBP challenges in an interactive panel discussion. The aim is to provide practical solutions for getting evidence into practice in your clinical setting.

Who should attend?

The JBI gLOCAL Solution Room aims to bring together clinicians, academics and policy makers interested in evidence-based healthcare and serve as a synchronized, collaborative, and widely accessible inter-regional space to promote evidence-based practice discussion and debate. Attendance to all events worldwide is free of charge.

Learn more about 'GLOCALization' and JBI's approach to global evidence-based healthcare at <https://jbi.global/solutionroom>

08.00 – 08.15	Welcome and Introduction to JBI, RN, Associate Professor Phd Britt Laugesen
